No wax
Vinyl Sheet

MATURE NW MATURE NW • LUMINOUS

Discover the evolution of our vinyl sheet!

We have achieved realistic design of MATURE NW by the adoption of printing technology for vinyl sheets.

Our particular emphasis is not only on the "clarity of printing technology," but also on the "matte texture," which will make it look more natural.

Please enjoy the upgraded realistic design on user-friendly vinyl sheet of easy handling.

85
ITEMS

Make your space design come true as you imagined !

We propose 85 items in the current trend for your space design that the conventional vinyl sheet could not accomplish. Creation of unlimited design is in your hand now!

NEW

Enjoy a design that is more than authentic and is unique to a vinyl sheet.

Newly added to the line-up is 'MATURE NW•LUMINOUS', which shines with our unique technology of reflective embossing. Another unique feature is that you can easily enjoy designs that are not found in real materials. We propose new vinyl sheets that inspire sensibility.

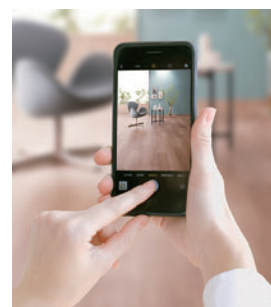

TOLI Ai Simulator
Image Fit

Easy Interior Simulation by Shooting and Selecting!

TOLI Ai Simulator, Image Fit is a simulation system that can easily create installation image by synthesizing TOLI interior finishing material into the room image for designing purpose. It's also compatible with room image you shot with your smartphone, etc., so please enjoy combinations of various product images into your room image and decide your own product selection.

You can scan this
QR code to download.

"Image Fit"

Mature NW INDEX

Mature NW・LUMINOUS P.02	Stone P.32
Wood P.08	Textile P.44
Concrete & Mortar P.28	Skirting P.46

NW mark

Flooring material that does not require wax maintenance for a long period of time. The aesthetic appearance can be maintained a long time only by daily cleaning.

Walkers' mark

Each product is ranked by the data of wear resistance as an index. The results are based on the condition that the installation was performed as the specified.

Commercial use

Suitable for use in various facilities such as offices, schools, hospitals, shops, and so on.

TOLI's Recommended Product Mark for Medical and Welfare Facilities

This product is recommended by TOLI for medical facilities and welfare facilities.

SIAA mark

This product is recognized as conforming to SIAA certification standards.

Antiviral mark

The product has the property to reduce the number of specific viruses on the product.

Antimicrobial mark

The use of antimicrobial agents and the antimicrobial properties of the materials provide antimicrobial performance that prevents the growth of bacteria. In order to prolong the life of the product's performance, please pay attention to the daily maintenance.

JIS mark

This symbol indicates that a registered certification body approved by the government has approved the product to pass the Japanese Industrial Standards.

Compliant product mark with Act on Promoting Green Purchasing

This mark is displayed on specified procurement items under the Green Purchasing Act. The requirement is that the total weight of recycled vinyl material is 15% or more based on the total weight of the product.

Low Carbon Product Mark

This product has been certified by TOLI as contributing to the realization of a low-carbon society.

The products with this logo are "FloorScore"-certified.

This will contribute towards points for LEED v4 EQ Credit Low-Emitting Materials.

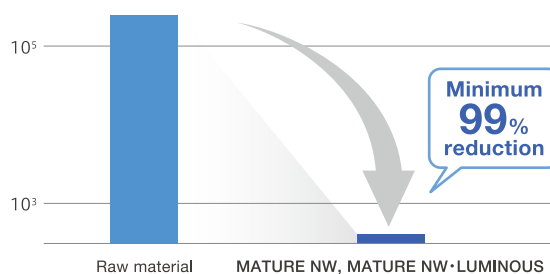

Now it has Antiviral Property!

Reduce the number of specific viruses on the product by 99% or more!

[Virus A*1 with envelop*2]

Number of Viruses(PFU/cm²) *3

Complies with SIAA safety standards.

- Antiviral processing is not intended for the treatment or prevention of illnesses.
- SIAA marking is indicated on products that have been quality-controlled and disclosed on such information, in accordance to the guidelines of the Society of International sustaining growth for Antimicrobial Articles based on the results evaluated by ISO21702 method.

■ Details of antiviral testing

Testing institute: Japan Textile Products Quality & Technology Center

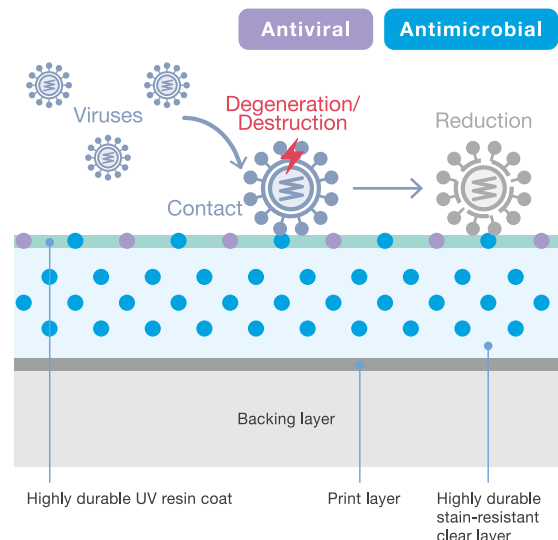

Test Methods: ISO21702 Method *Data are based on actual test, and not always guaranteed.

*1... Virus name is indicated as "Virus A" because viruses cannot be indicated by the drug and equipment law (Law Concerning the Quality, Effectiveness, and Safety Assurance of Medical Devices, etc.).

*2... A membrane-like structure found in viral particles. Without an envelope, it is said to be more resistant to alcohol and other disinfectant solutions than with an envelope.

*3... PFU(Plaque-forming unit) This is an index of the number of viruses measured by the plaque method.

Structure of MATURE NW and MATURE NW・LUMINOUS

Mature NW LUMINOUS

◀ CONCEPT ▶

Japanese sense
of Beauty

New
Technologies

LUMINOUS series sparkle and twinkle delicately.

Designed with an image of "Luminance" with a reflective embossing that creates a shiny surface. The motif of the emboss is "Kikut-sugi-Kiriko", a pattern used for cut glasses of Satsuma Kiriko and Edo Kiriko.

Japan's modern design was released from Japanese Sense of Beauty supported by new technology.

GOOD DESIGN

Combination with a natural wood grain pattern will create a home-like space with a sense of cleanliness.

FS4104

FS4001

Mature NW

Mature NW
LUMINOUS

Coordinate

Combination of MATURE NW
with MATURE NW • LUMINOUS

FS4046

FS4102

A space that feels depth by contrast of dynamic lava patterns and delicate LUMINOUS design.

LUMINOUS HIWARE

The motif is the painting method of ceramics that has been used since the Edo era and called "Hiware or ice cracking pattern" made by intrusion to ice cracks. LUMINOUS delicately expresses the glitter and transparency made by the ice broken irregularly.

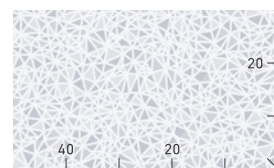

FS4101

FS4101 **NEW**

FS4102 **NEW**

Pattern match not required (cm)

MATURE NW・LUMINOUS

Sheet size: 1820mm width × 20m Overall thickness 2mm

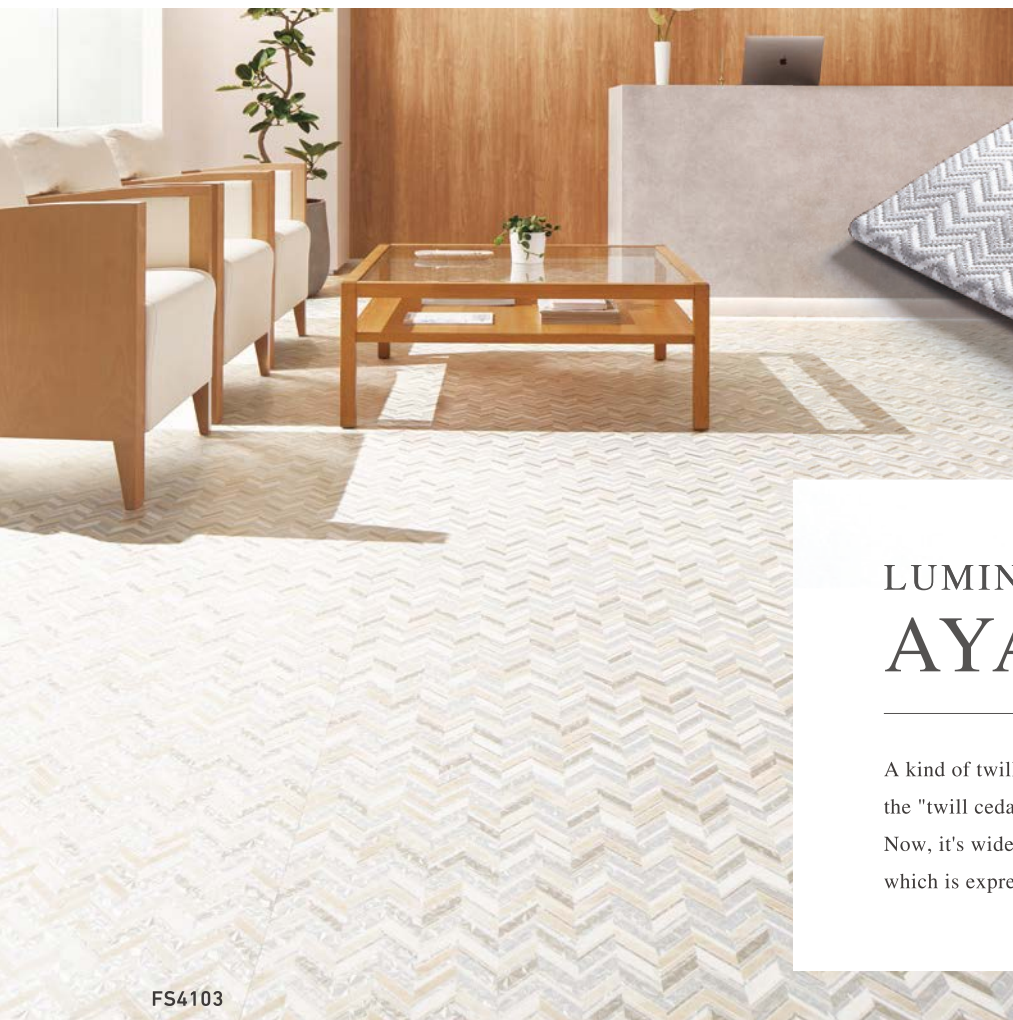

FS4103 **NEW**

FS4104 **NEW**

Pattern width : Approx. 4cm (cm)
Joint alignment is impossible due to the manufacturing reason.

FS4103

LUMINOUS AYASUGI

A kind of twill weave that has long been familiar, the "twill cedar pattern" is a motif. Now, it's widely used as a herringbone pattern, which is expressed brilliantly here with its adoption in LUMINOUS.

MATURE NW・LUMINOUS

Sheet size: 1820mm width × 20m Overall thickness 2mm

Mature NW

MATTE SURFACE

We focus on the appearance yet do not give up basic functions.
Low gloss with the pride of professional manufacturing.

A matte surface texture that overturns the common knowledge on sheet floorings. By focusing on this texture, the delicate touch of the real material was reproduced further realistically. Thus, we have achieved a high degree of design.

Conventional product

Low gloss UV resin coat

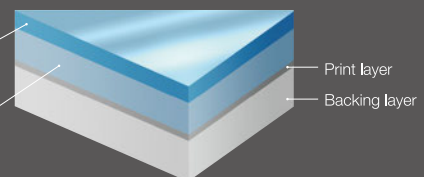

Pursuing a more realistic natural texture by suppressing the glossy characteristic of vinyl...
Surface irregularity is also reproduced by embossing process.

It has a high-quality finish far different from that of conventional vinyl sheets.

Research on matte finish UV resin coating has achieved both high design and easy-stain-removing function.

Highly durable
UV resin coat

Highly durable
stain-resistant
clear layer

'NW' requires no labor-intensive wax maintenance even with matte texture.

"NW" in "MATURE NW" stands for "No Wax" which means a floor material requiring No maintenance by Waxing. It maintains the beauty of the facility for a long time only by daily cleaning, and reduces the maintenance cost of the floor.

LINE UP

Abundant variations
to find the best design
for a particular space

WOOD

A full lineup of colored patterns with a richer feel of material, such as standard herringbone and old wooden patterns, including a deep and basic oak designs which will fit naturally to any type of interior design.

STONE

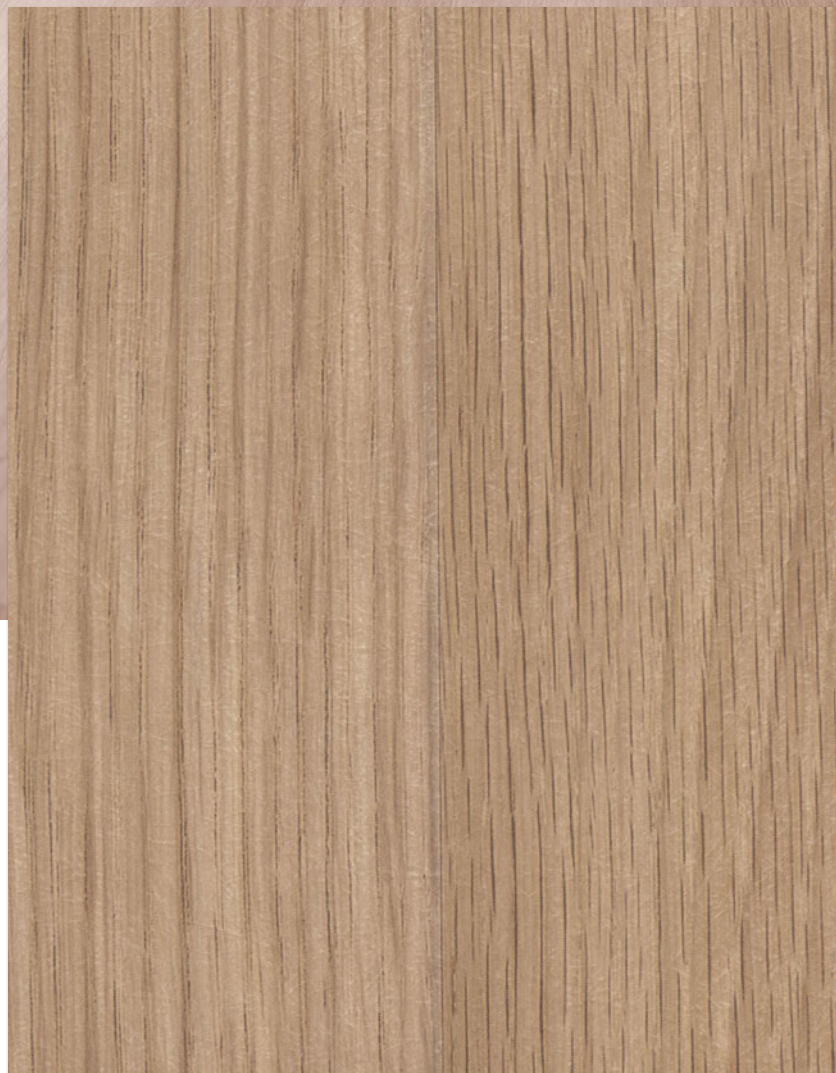

Newly released are; a tile pattern with a volcanic lava motif and a white marble pattern that feels soft warmth. A lineup of new patterns for a wide range of tastes, matching from industrial spaces to luxury spaces.

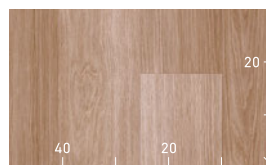

Matte & Calm

Matte texture and faint light of pearl ink will comfort you by the design of simple and deep wood grain.

FS4001

Misty oak **FS4001** **NEW**

Plank width: Approx. 15 cm (cm)
Joint alignment is impossible due to the manufacturing reason.

MATURE NW

WAVY HABAKI* ⁴ * ⁵	90.9cm	29cm	Yes	VTH290	10 pcs.	Stocking item	—
STYLE HABAKI(Plain)* ⁴	12m/roll	4cm	Yes	STH	1 rolls	Stocking item	—
STYLE HABAKI(Wood grain/Abstract)* ⁴				STHDE	4pcs/carton		
STYLE HABAKI Outside Corner Trim(Plain)	20cm						
STYLE HABAKI Outside Corner Trim(Wood grain/Abstract)							

*1 LONG HABAKI with heights of 4cm and 10 cm(Straight type) are not available.
*2 Anti-bacterial Stain-resistant WIDE HABAKI in textile texture is available only in the height of 30cm.
Also, depending on the color of the wall surface, the top edge line may look obvious due to the manufacturing method.
*3 We do not manufacture wood grains and textiles of SASARA HABAKI (Step skirting).
*4 WAVY HABAKI and STYLE HABAKI are available only in stocking colors and sizes.
*5 Depending on the job-site environment, the bottom edge of the double-sided tape attached to the backing of WAVY HABAKI may become visible as a line on the surface.

On ordering: Please add your color number to the above code.

Installation method and Specified adhesive

	Product Subfloor	Adhesive		
		SOFT HABAKI / LONG HABAKI / SASARA HABAKI	Anti-bacterial & stain-resistant WIDE HABAKI / WAVY HABAKI	STYLE HABAKI / STYLE HABAKI Outside Corner Trim
Regular method	Dry mortar, wooden walls, and gypsum board substrate	HABAKI NORI / Eco LX HABAKI NORI	HABAKI NORI / Eco LX HABAKI NORI	HABAKI NORI / Instant glue / jelly-type instant glue
	For the installation at outside corners	CR CEMENT / Eco LX HABAKI NORI	CR CEMENT	
Notes	<div>● HABAKI NORI and CR CEMENT are flammable items.</div> <div>● Do not use CR CEMENT except for the Outside Corner Trim.</div> <div>● Round-edged skirting is installed after flooring, and Straight skirting is installed before flooring. Prepare smooth and flat substrate before installation.</div> <div>● For the installation of WAVY HABAKI, please use double-sided tape affixed to the back of the wavy part and TOLI's adhesive.</div> <div>● For the installation of STYLE HABAKI, be sure to use TOLI's adhesive to avoid having joint gap.</div> <div>● Use instant glue or jelly-type instant glue when seaming joints of cut skirtings, and joints with an Outside or Inside Corner Trim of STYLE HABAKI.</div> <div>● STYLE HABAKI at the internal corners shall be installed by abutting.</div>			

MATURE NW, MATURE NW·LUMINOUS

Product category: Heterogeneous vinyl floor sheet -FS

Specification: Width x Length 1820mm×20m
Total thickness 2 mm
(surface clear wear layer - 0.5 mm)
Highly durable UV resin coat
Packaging: 20 m/roll
JIS-No. JIS A5705 vinyl flooring
Floor sheet GB0506143

Suggestions on cleaning before moving in

1 Remove any dust or dirt generated during installation.

Use a vacuum cleaner, mop, etc. to remove any accumulated dust or dirt. When cleaning, frequently wash the mop to remove any dirt adhering to the mop. If the mop is dirty, the wiped dirty water may spread over the floor. Finally, wipe up the whole floor with a clean and slightly wet mop.

2 If stain remains, use detergent and clean with a polisher or an automatic floor washer.

If there is too much dust or dirt, cleaning with a moist mop may not be enough.

If the dirt cannot be removed, use a cleaning agent and clean with a polisher or automatic floor cleaner. Do not leave the dirty water after cleaning on the floor, but wipe it up with a clean and slightly wet mop.

3 After cleaning, cover the floor with protecting sheet.

■ Installation method

Installation methods	Subfloor	Adhesive
Regular method	Dry mortar-concrete subfloor	ECO ROYAL CEMENT / ECO AR600
Regular method	Wooden floors (plywood, etc.)	ECO AR600
Moisture-resistant method	For Mortar concrete subfloor with possible moisture rise	EPOGREY ST / US CEMENT / TOLI US CEMENT(Less smelly) / US200
—	TOLI UNDERLAY SHEET subfloor	US CEMENT / TOLI US CEMENT(Less smelly) / US200
Seam method	Hot welding method using dedicated welding rod	Dedicated welding rod (antimicrobial type) TOLI Super SEAM Liquid
	Joint Adhesive Method with Dedicated Joint Treatment Agent	TOLI JOINT SHIELD (antimicrobial)

- In the case that TOLI UNDERLAY SHEET is the subfloor, TOLI JOINT SHIELD can be used except for the area where heavy carts come back and forth to give intensive loads to floor seams.
 - When swing-type motorized beds are used in medical and welfare facilities, please use epoxy resin-based adhesives (EPOGREY ST), or urethane resin-based adhesives (US CEMENT, TOLI US CEMENT-Less smelly, US200) regardless of the ground moisture content.
 - There are other points to keep in mind when using a swing-type motorized bed. For detailed information, please contact TOLI sales reps.
- *Do not use urethane-resin-based adhesives other than US CEMENT, TOLI US CEMENT (less-smelly), or US200.

Durable, Strong and Exquisite

"NW" means "no wax"

and is a floor material that does not require maintenance by wax.

The cost of floor maintenance will be drastically reduced, and the beauty of the facility can be kept long only by daily cleaning.

We have a large lineup and will continue to contribute to comfortable facilities.

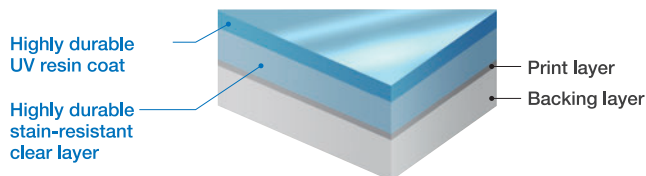

Easy cleaning and always clean!

Stay clean with "No Wax".

Extensive collection!

Long-lasting aesthetics with an excellent durability!

Technology of "highly durable resin coating" ensures long-lasting antifouling performance

Advantages created by the NW Series

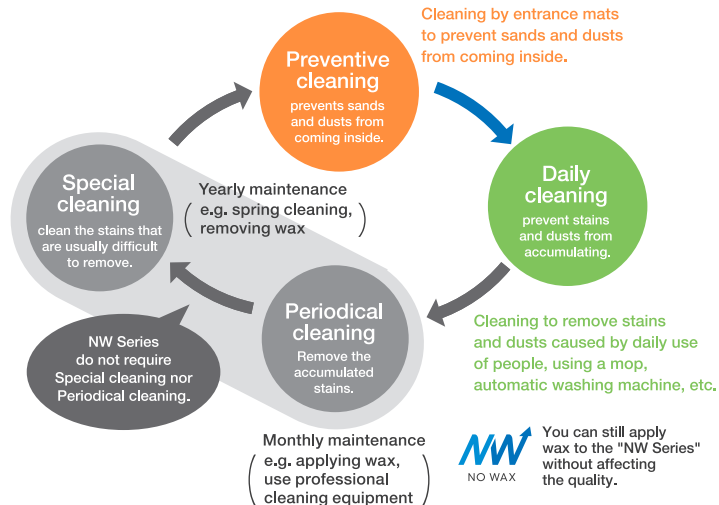

Floor kept clean only by

preventive cleaning

+ daily cleaning

Periodical cleaning and special cleaning are no longer required.

You can use this product for a long time without periodical wax maintenance.

TOLI JOINT SHIELD

Joint adhesive method (Joint Shield method) to beautifully finish sheet flooring

1

Less conspicuous joints compared to welding rods

The seam of the vinyl sheet is not conspicuous, so the design of flooring will not be spoiled.

2

High strength and durability equivalent to that of welding rods

It has the high strength and durability equal to the welding method.

3

New 4-step method

Easy to understand the 4-step simple installation.
