NEWMOR

WALL ART

WALLCOVERINGS SINCE 1967

WALL ART

Newmor is the largest independent commercial wallcovering manufacturer in the UK. Established in 1967, we are still family owned today. Our specialist wallcoverings are specified in hotels, workplaces, and the wider hospitality sector world-wide. We operate in over 80 countries through a vast international distribution network and regional sales offices.

In addition to manufacturing wide width commercial wallcoverings, any design in our Newmor Custom collection can be transformed into WallArt. We use automated and computerised cutting

and assembly technology to produce high-quality, high-volume pictures using special treatments. There is a vast choice of designs, from geometric prints, botanical designs and scenes from nature to our custom design service to create something completely bespoke for your project. You can even supply your own artwork. All designs can be customised and printed onto any of our wallcovering bases for framing or printing onto canvas. So, whether you require mounted prints, framed artwork, or printing onto canvas, our team is on hand to support your project needs.

Newmor wallcoverings are made in the UK but sold to the world.

Please email sales@newmor.com with your requirements.
